

Ahmed Ibrahim Frontend Developer (Next.js & React)

✉ ahmed.ibrahim.elsayed01@gmail.com 📁 My Portfolio 🔗 LinkedIn 🐙 GitHub ☎ +201009400163

👤 SUMMARY

Computer Engineering student at Alexandria University with 2+ years of experience building modern web applications using React, Next.js, and TypeScript. Experienced in developing scalable full-stack applications with real-time features, REST-style integrations, authentication systems, and collaborative workflows using Git/GitHub. Strong foundation in software engineering, algorithms, databases, and distributed systems, with growing experience in backend and cloud-oriented development.

📁 EXPERIENCE

Frontend Developer & Consultant Sep 2025 – Present

Alex Eagles (Alexandria University Drone Technical Team)

- **Serving as the team's go-to frontend expert within an 8-member student engineering team**, advising on architecture decisions, component design, and best practices.
- **Contributing to an awards-level team website for the SUAS competition**, with a focus on high-fidelity animations and premium UI quality.
- **Consulting peers on frontend standards**, helping maintain code quality and consistency across the project.

NTI MEAN Stack Summer Training Aug 2025 – Sep 2025

National Telecommunication Institute

Certification: [Certification Preview](#)

- **Gained hands-on experience with the MEAN stack** (MongoDB, Express.js, Angular, Node.js).
- **Applied server-side logic using Express.js** (routing, middleware, session handling).

📁 PROJECTS

Blankspace (Notion Clone) [Actively in development]

Live: [Blankspace Preview](#)

Code: [GitHub Repo](#)

- **Built a full-stack note-taking platform** inspired by Notion, implementing **real-time document synchronization and hierarchical document structures** across **10+ core features**.
- **Deployed and maintained applications on Vercel** with optimized production builds and asset delivery.
- **Implemented authentication with Clerk**, media uploads via EdgeStore, and a responsive UI using **Tailwind CSS and shadcn/ui** with **20+ reusable components**.
- **Currently extending the platform with AI features** — an **AI Writing Assistant** (in-editor completions and rewrites) and **AI-powered semantic search** across documents.
- Developed productivity features including **nested documents, command-palette search, and trash/restore workflows**, with **state management via Zustand and backend logic in Convex**.

Technologies: Next.js, Convex, Zustand, and Shadcn.

Portfolio

Live: [Portfolio Preview](#)

Code: [GitHub Repo](#)

- **Built a high-fidelity animated portfolio** using **GSAP**, delivering **smooth page transitions and scroll-based animations** across **5+ interactive sections**.
- **Implemented lazy loading, optimized asset delivery, and responsive animation workflows** to improve Lighthouse performance and Core Web Vitals.
- **Ensured full responsiveness across all devices**, from mobile to desktop.

Technologies: React, GSAP, Tailwind, Formspree, Zod

Smart Campus Navigation System (Graduation Project) [Actively in development]

Mobile Navigation Platform for Alexandria University

- **Developed backend services using Kotlin and Spring Boot** for a **campus-wide navigation and student services platform**.
- **Designed and implemented APIs supporting outdoor and indoor routing**, enabling students to navigate buildings, lecture halls, and campus facilities efficiently.
- **Built user profile and preference management features with campus-integrated functionality**, including timetable synchronization and personalized navigation experiences.

Technologies: Kotlin, Spring Boot, REST APIs, Mobile Backend Development

🎓 EDUCATION

Computer and Communications Engineer, Bachelor's Degree 2021 – 2026 | Alexandria, Egypt

Faculty of Engineering, Alexandria University

Relevant Courses: Machine Learning, NLP, Algorithms, Data Structures, Databases, Networks, Computer Security, and Distributed Systems.

🧠 SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Zustand, GSAP

Tools & Practices

Git, GitHub, Agile Development, Testing (Vitest/Jest), Performance Optimization, Accessibility

Backend & Databases

Node.js, Express.js, Convex, REST APIs, MySQL

AI & Emerging Technologies

LLM Integration, Vercel AI SDK, Streaming UI, Prompt Engineering
